Dumaguete City, Negros Oriental

To obtain a challenging position in the field of software development where I can apply my programming knowledge, grow my technical skills, and contribute to innovative technology solutions.

EDUCATION

2022 - Present

Negros Oriental State University

Bachelor of Science in Information Technology

2020 - 2022

St. Augustine Academy of Bayawan Inc.

Graduated with honors

SKILLS

- Communication Skills
- Programming
- Time Management
- Fast Learner
- Fast Learner

WORK EXPERIENCE

Certified AI Training Contributor – Outlier AI (Remote)

October 2, 2024 - Present

- Recognized for maintaining high performance on specialized data labeling tasks (e.g., advanced image segmentation, multi-class classification).
- Developed a deeper understanding of how annotated data supports the training of machine learning models.
- Collaborated with quality assurance reviewers to ensure data consistency and integrity.

Freelance AI Data Annotator – Remotasks (Remote)

March 6, 2024 - January 22, 2025

- Performed a wide range of data annotation tasks including image classification, text labeling, and 3D Lidar annotation.
- Participated in various projects supporting the development of AI models for self-driving cars, object detection, and natural language understanding.
- Gained experience using web-based annotation tools and working independently in a remote setup.
- Maintained high accuracy and speed metrics while meeting project deadlines.
