Work Experience

Outlier AI

Remote | October 2024 – December 2025

- Executed specialized data labeling tasks, including advanced image segmentation and multi class classification, while maintaining high performance.
- Applied an understanding of annotated datasets and their role in supporting the training and development of machine learning models.
- Collaborated with quality assurance reviewers to identify and correct annotation inconsistencies, ensuring data accuracy, consistency, and integrity.

Full-Stack Developer

Freelance | July 2025 – May 2026

- Developed responsive and scalable web applications using ReactJS, NextJS.
- Build modern, reusable interface using TailwindCSS.
- Worked with Supabase and PostgreSQL for database management and authentication.
- Developed cross-platform mobile applications using React Native.
- Integrated third-party services and APIs into web and mobile applications.
- Focused on performance, responsiveness, and delivering clean, user-friendly experiences.

Projects

Abalay Rent Web

Languages: ReactJS, NextJS, TailwindCSS, Supabase (PostgreSQL)

Link: <https://www.abalay-rent.me/>

Abalay Rent App

Languages: React Native, Supabase (PostgreSQL)

Link: <https://play.google.com/store/apps/details?id=com.abalay.mobile&hl=en>

Farm Marketplace

Languages: ReactJS, NextJS, TailwindCSS, Supabase (PostgreSQL)

Link: <https://farm-market-alpha.vercel.app/marketplace>

Skills

Frontend: ReactJS, Next.js, React Native, Tailwind CSS, Responsive Web Design

Backend & Database: Supabase, PostgreSQL, Authentication, API Integration

Programming: JavaScript, TypeScript

Mobile Development: React Native, Cross-Platform Development

Machine Learning Data: Data Annotation, Image Segmentation, Multi-Class Classification, Dataset Quality Assurance
